

WHY PLATINUM PEST PROTECTION?

So, you've got pests and you need help with eviction. What's the benefit in packaging up for platinum pest protection? Why not go for the one-time treatment and call it a day?

PRICE ADVANTAGE

The PPP is designed to address each customer's specific pest control needs while maintaining any budgetary concerns. PPP accommodates those who need less service, and those requiring the whole enchilada, with a variety of packages to choose from.

BONUS

Not only are there big price advantages to PPP, but added benefits to each package also. From BugMaster branded swag, to additional products and services, the more you spend with BM, the more you get back.

BETTER PRODUCTS → BETTER CONTROL

People often think they can get control of pest issues themselves with over the counter pest products like Raid and Terro ant bait or solutions found on Google. What they don't know is that commercial grade products work better and last longer than anything available to consumers. Combine the best products in the industry with a BM tech's vast pest knowledge and the proof is in the pudding.

TIMELY + TAILORED

PPP's are designed to maximize efficiency and results. Our team of pest pro's is constantly tweaking service areas and times to ensure you get the maximum amount of protection from the most insects at every service call. Our pro's will even give recommendations and advice at each service call tailored to suit your specific pest control needs at the time.

1 TECHNICIAN → 1 HOME APPROACH

Assigning PPP's to individual techs allow them to really learn your property and individual pest control needs. All of our techs are locally trained and have direct access to our full network of pest professionals at their fingertips. They also take part in license recertification programs put on by the SPMABC to ensure they remain at the forefront of pest control techs in the province.

WHEN AMAZING THINGS HAPPEN, YOU GET PEACE OF MIND

If you have a pest challenge that's getting bit too daunting or simply don't have the time in your busy day to tackle pest issues, a PPP is right for you. Allow the industry's best to protect you and your home this coming season. And as always, the Bug Stops Here.

Keep your summer home, vacation property, or seasonal rental free and clear of pests while you're away! If you're a permanent resident, keep your home pest free all year round. Spiders in your basement? Ants on your patio? Wasps EVERYWHERE? Relax, Platinum Pest Protection from BugMaster Pest Control has you covered.
